## CRITERION I - CURRICULAR ASPECTS

### 1.1 - Curriculum Planning and Implementation

#### 1.1.1 - Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution has devised an action plan for effective implementation of the curriculum prescribed by the JNTUA, Ananthapuramu. As a part of the planning, frequent meetings are conducted in every department to devise strategies to implement the curriculum successfully. Faculty are encouraged to use innovative teaching methods such as power point presentations, discussions, seminars, video lectures, NPTEL Video Lectures etc., apart from traditional lecture method to impart the curriculum. Course files are prepared by the faculty in their respective subjects as per the university academic calendar. Here are the action plans executed for the effective implementation of the curriculum. □ A copy of the curriculum is provided to each student. □ The academic calendar is also issued to the students. The calendar is followed, with minor changes whenever required, to accommodate unforeseen situations. □ An academic schedule is prepared for the semester based on the guidelines given by JNTUA, Ananthapuramu. □ Lesson plans are prepared by the faculty before beginning of the semester and faculty are instructed to follow the lesson plans strictly. □ The progress of syllabus coverage is monitored periodically by the Heads of the Departments concerned and the Principal. □ The Class attendance registers maintained by the faculty members contains entries like class wise student attendance, topics covered and internal marks. The attendance registers are regularly scrutinized by the HoD and the Principal. □ In addition to the curriculum, students are educated about the latest developments in their respective fields through guest lectures by experts.

## 2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Evaluation reforms are quite transparent and made accountable to every student under the affiliating university, i.e., JNTUA, Anantapuramu. If any student expresses any doubts about the evaluation or marks awarded in a particular examination, the University provides recounting or revaluation facility on payment of prescribed fee. If a student wants to challenge the evaluation of the University in a particular subject or paper, he/she can take a subject expert for rescruinizing the answer script, thus ensuring transparency of the evaluation process. This is called challenged valuation. Throughout the year, a closely monitored mechanism of constant communication by the office administration and the Principal is ensured with the examination cell of the university and the authorities concerned. Appeals through letters with discrepancies described vividly are made to elucidate quick response and clarifications. A close liaison with the Director of Evaluation or Controller of the Examinations of the university and its office takes care of the satisfaction of the beneficiary students in the examination process. The university officials have a very systematic and meticulous approach to clarify any doubts or discrepancies with regard to the evaluation process and results of students. Any grievance is quickly addressed and solved with the supervision of the liaison officials from the institution. The students are briefed on the evaluation methods, scheme of evaluation for a question paper set by the board of examiners, weightages, etc. and are made to rehearse the answers for some question papers

before the examination schedule. The internal marks of tests are sent to the university to be added to the marks obtained in the external examinations of the University. The internal marks of the laboratories are bifurcated as a form of continuous evaluation which includes records, attendance and performance. Internal assessment process and awarding of the marks to the student is done at the departmental level. The marks are then sent to the university. The departments conduct monthly test and staff give assignments and seminar for the students. This ensures the effective implementation of the evaluation process.

### 2.5.3 - Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Continuous internal evaluation is achieved through practices in terms of conduction of internal exams, laboratory experiments and seminars. After internal exams, evaluation and distribution of marks are discussed in the class in order to promote self evaluation skills. The institution strictly follows the academic calendar provided by the JNTUA University to the students and university also notifies the academic calendar of events of the college. Academic calendars are displayed in the notice board and in websites. It includes commencement of class work, last day of instruction, schedule of sessional tests and end semester examination preparation holidays and lab exam schedules. Based on the academic calendar the faculty are strictly instructed to complete the syllabus. The internal exams are conducted according to the detailed schedule in the academic calendar. The faculty is insisted to submit their question papers before the stipulated time to conduct the exam. The students are given the academic calendar for transparency of exam schedule. The exam time table will be displayed in the notice board of the department and in the notice board of the exam section. The external lab exams will also be displayed in the notice board of the department in its detailed information regarding the date of exam commencement, time and batches scheduled are also displayed. The external theory exam time table is also provided by the university in the academic calendar. So the institution will make arrangements to complete the syllabus, commencement of two internal exams, lab exams before the external theory exams by any of the academic calendar of the institution. Every process is up to date as specified in academic calendar of the institution for continuous internal evaluation of the students.

## 6.2 - Strategy Development and Deployment

6.2.1 - Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Admission of Students	<p>The admission process is based on the guidelines provided by Andhra Pradesh State Council for Higher Education (APSCHE). An advertisement will be issued in leading national/regional daily newspapers during the admission time which contains detailed information about the courses, intake of students, eligibility criteria etc. The information regarding the college is also made available through <input type="checkbox"/> The prospectus which gives the complete information about the college which includes courses available, facilities, staff details, rules and regulations etc., <input type="checkbox"/> The college website, which is updated on a regular basis, gives the latest updated and detailed information about the college. <input type="checkbox"/> The parents, the students and the general public will know about the academic related activities organized in the college like seminars, conferences, workshops etc. through newspapers and social media. The admission procedures are fully transparent, recorded and sent to the Chairman, APSCHE, Hyderabad, for ratification.</p>
Industry Interaction / Collaboration	<p>This institution has MoUs with Seventh Sense Talent Solutions, YIIT, Take off, E-Research Design Labs for internships, Skills Development, Placement Training etc. SVP CET established "Incubation Centre" to encourage entrepreneurship. YIIT established incubation centre in 2014, developing the ERP solutions to Education and Hotel industry</p>
Human Resource Management	<p>The Governing Body conducts at least two meetings in an academic year and discusses problems faced in the past and how to rectify them in the future. It advices the Principal to act and accordingly and the Principal takes the message to the faculty. The development, supervised by the management, comprises extension of building, providing additional facilities, introduction of new courses, inclusion of new faculty, employing staff, student admissions Next to the Principal in the hierarchy are the Heads of Departments on the academic side and the Administrative officer on the administrative side. The Librarian and the placement officer report directly to the Principal. The management conducts periodical staff meetings and also arranges for the appraisal of the teachers and the overall institutional performance by the students, which is perused by the Principal to take</p>

	<p>necessary steps toward institutional development. Income/expenditure are closely monitored by a Chartered Accountant and over seen by the Management. The Institution is progressively using an ERP solution to start with admissions and Training and Placement modules.</p>
<p>Library, ICT and Physical Infrastructure / Instrumentation</p>	<p>The SVP CET is sprawled over an area of 26 acres well equipped with excellent physical infrastructure facilities within 5 km distance from Puttur Town and 40 km from Tirupati. The institute has made it a policy that no compromise should be made in establishing infrastructural facilities and accordingly developed the infrastructure and facilities as per AICTE norms. There are 3 academic blocks with spacious class rooms with LCD projectors, tutorial rooms, drawing halls, state-of-the-art laboratories and faculty rooms. The administrative aspects of the institute run on ground floor of a central block and in addition to rooms for seminar, conference halls, training and placement cell, examinations cell, chambers of the chairman, and the principal. The institute has adequate facilities for sports and games, Computer center with 741 systems, excellent transport facility, seminar halls in addition to the infrastructure of the college. Photo copying facility, health-care center, spacious canteen with hygienic food, hostels, RO water supply, uninterrupted power supply, fire extinguishers for safety are the basic well-maintained in the campus. The institute has an excellent state-of-the-art library with 5,109 titles includes 29,296 text books and has a reprographic facilities and it also includes a digital library with high speed internet connectivity, in fact, one of the best facilities in library. 70 Mbps broadband internet connectivity with localized Wi-Fi facility adds technological support to the learning process. The institute has a designated officer and has appointed sufficient support staff for the overseeing the maintenance of buildings, class-rooms and laboratories</p>
<p>Research and Development</p>	<p>SVP CET nurtures a conducive atmosphere for such pursuits by disseminating information about various scholarships, fellowships and grants, granting leave for pursuing research and permissions to attend seminars and conferences. The college extends further support by providing infrastructural support, scientific equipment, latest software and other e-resources towards research innovations. SVP CET encourages students and faculty to involve in research activities through its R D Cell. The faculty members have received the grants to conduct the national level workshop/seminar/ Conference from the Government agency's list DST, AICTE, AP Pollution Board, UGC etc. SVP CET is doing on an averagely three consultancy projects per year with the average revenue of Rs.1,75,000 With an intention of promoting innovations with</p>

	<p>Intellectual Property Rights (IPR), is regularly conducting awareness programs on Intellectual Property Rights. SVP CET believes in serving the need of the community around its precincts and has a well-defined community outreach program. Due to the NSS activities and students involvement, this institution got three recognitions from the local Government bodies for their services. Around 65 of students are participating in the extension activities voluntarily.</p>
<p>Examination and Evaluation</p>	<p>SVP CET has a continuous evaluation system. Internal assessments are conducted as per the guidelines of affiliating University. Remedial classes are conducted to slow learners. The evaluation processes are made very transparent and the marks obtained are displayed on the notice boards. A mechanism is in place for addressing the grievances if any raised by the students regarding assessment. As far as learning process is concerned, the institute has provided facilities like digital library, e-learning resources, NPTEL videos, content CDs etc.</p>
<p>Teaching and Learning</p>	<p>SVP CET adopts a student centric approach to achieve the desired learning outcomes. Interactive learning techniques like seminars, tutorials, video lectures and programming contests, major and mini projects enrich the teaching learning experience. Besides JNTUA prescribed syllabus, special coaching is given on communication skills and aptitude to prepare the students for employment. Teachers prepare Course Files that include lesson plans, lecture notes, teaching methodology, objectives and outcomes. Several modes of feedback mechanisms make sure that the teaching- learning and evaluation processes are conducted to the satisfaction of stakeholders The academic programmes are supported by 209 faculty members. The college maintains a faculty student ratio of 1:15 in Undergraduate programme and 1:12 in masters programmes. Meticulous planning for teaching in the beginning of every semester paves the way for efficient teaching environment. A well built mentoring system provides guidance, encouragement, and advices to the students throughout their studies.</p>
<p>Curriculum Development</p>	<p>As the College is affiliated to JNTUA, it adapts the syllabi prescribed by the University. However, the College devises innovative and creative methods for the delivery of the curricula. As the institution is an affiliated one, academic flexibility and interdisciplinary options etc., are not possible. However, the institute introduced some supplementary enrichment programs like seminars, guest lectures, group discussions, industrial training programmes, exposure to co-and extra-curricular activities etc. help students to enhance</p>

the learning process. The university syllabus is analyzed by the senior faculty members in the departments and the identified gaps in curricula are bridged by topic beyond syllabus. The necessary revision and redrafting of the curriculum, based on feedback from students, faculty, employers and other stake holders is forwarded to affiliating university for incorporating necessary modifications. Internalizing the needs of the primary stakeholders - the students - and keeping in sight the expectations of other stake holders, faculty practice different techniques to achieve the set outcomes for each course and the overall attainment of the outcomes of each program. Faculty are encouraged to attend Faculty development programs organized by the University and the Institution to boost their knowledge and teaching efficacy.

## 7.2 - Best Practices

### 7.2.1 - Describe at least two institutional best practices

Describe at least two institutional best practices Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link Two Best Practices of the institution are 1) Enhancing student skills set: 2) e-Governance of Central Library 1) Enhancing student skills set: Objectives of the practice: In addition to the academic activities, the institute is making efforts for all round development of the students. The objectives are to develop enhance the following

skills in the students: a) Technical skills, b) Interpersonal skills c) Organizational skills. The context: The institute has been working with the aim of making it a centre of excellence. Students from different levels backgrounds need training to improve their technical as well as organizational skills. Considering these requirements, college is providing excellent facilities for the students to improve their skills and to achieve their career goals. The Practice: a. Students under the guidance of faculty members organise departmental associations in each department. These associations are responsible for organising seminars and presentations, debates, group discussions, quiz etc. for developing the skill and personality of the students. b. Eminent speakers from industry and prestigious academic institutes from India and abroad are being invited for delivering guest lectures on latest technologies. c. E-Journals/Magazines are provided in the library to know about the new technologies and research trends. d. The institute encourages the students to attend workshops / student meets / paper presentations to improve their technical and presentation skills. e. National Level Student Technical Festival is conducted every year by all the departments with the participation of students from all over India helping students to enhance their technical knowledge with more exposure to new technologies and recent developments. f. The college provides financial assistance to students to implement new ideas or thoughts as projects and encourages creative skills of the students. g. Industrial visits are being arranged for practical exposure to students. h. Students are being encouraged to attend summer projects / internships in the industries/prestigious academic institutions to acquire practical knowledge i. The institute is encouraging the students to become members of professional bodies like IIE, IETE, ISTE, IEEE etc., and various events are being organized under these professional bodies to improve their skills. j. The college is organizing various co-curricular and extra-curricular activities through student initiated clubs for enabling all round development of the students. Evidence of Success: a. The change in the behaviour and improvement of communication skills of the students from first year to final year is an ample testimony for the success of the programmes being organized. b. The prizes / awards won by the students in technical and other events emphasize the impact of the programmes. c. The performance of the students in placements is an indication of the success of the programmes being organized. Problems Encountered Resources Required: It is difficult to motivate all the students to participate in the programmes. It is monopolized by a small number of students. This is also mainly to the non-availability of space for the location of each departmental association. Formal spaces are required so that students can organize themselves freely. So, resources are required for the establishment of a separate room for the departmental associations and seminar halls for each department. 2) e-Governance of Central Library Objectives of the Practice: The objective of the practice is to provide effective and easy way to automate the functionalities of the Library and to provide information about the students and staff by

software. Software which is being used by our Institute provides various types of services like maintaining student details, Students books issues and return, Faculty details, Faculty books issues and returns, etc, thereby reducing human error and paper work. Context: To maintain the records of all students manually is a huge task and there are chances of committing errors. Hence software is being used by our Institute to store information about various types of educational related services like students and staff details, issues and returns of text books of this institution, thereby reducing human error and paper work. Practice: Software is loaded with main features like Admissions (Roll) Number, Student Name, Branch, Number of Text books taken by each student and faculty, Title of the Text book issued to students and Faculty, Issued date, Returned date, etc by which the details of mentoring data etc which can be accessed by the staff of the Library using their Login Id and Passwords. Evidence of Success The information regarding any student or staff can be accessed in minimum amount of time. As the log-in access is given only to Library authorities to access the information about student and Staff details, Number of text books, title of the text books, issued and returned dates etc of their wards in minimum amount of time. Effective usage of Library of resources. Cultivate self learning for both the faculty and students have also increased. The information is stored centrally and no redundant data is stored. Problems encountered and Resources required There will be problem in accessing the data when the network is down. There is a chance of files getting corrupted. A separate high configuration server is to be allotted for this software <https://www.svp cet>
